

Merilee	Novinson	
Julie	Nowak	Internet should be free for all. I am tired of companies or government trying to control everything. Stay out of it.
David	Nowak	Please oppose this plan which would give corporations unprecedented control.
John	Nowlin	
E Macarthur	Noyes	
William	Nuchols	We need real net neutrality. Please don't let the government, or big money take it over.
Tom	Nulty Jr	We need REAL net neutrality!
Jan	Nunes	I believe that the internet should be equally available to all and that the control should not be in the hands of a few. We need REAL net neutrality and not fast lanes for the few.
William	Nusbaum	
David	O Grady	
Frank	O Leeds	
Molly	Oberbillig	We need REAL net neutrality.
Arthur	Obermayer	Don't let the cable titans buy off the FCC!
Astrid	Obrien	
Denis	O'Brien	Open access internet for all ! One access, one speed, no censoring and no priority. Thank you.
Erin	O'Brien	Our political system has already been sold out to Wall Street, please don't allow our internet access and influence go the same route.
Anne	O'Brien	The president made a big mistake by appointing Wheeler to run the FCC - he is a crook.
Joseph	O'Brien	
Elsa	Obuchowski	First Amendment freedom of the press includes, in my opinion, freedom of access to information. What good is freedom of the press if major telecom and cable companies are given the right to restrict millions of Americans' access?
Alfredo	Ocasio	Reclassified all broadband ISPs to common carriers and protect in us. Stop protection corporations
Edwin	Ochmanek	
Joan	Ochoa	
Timothy	O'Connell	
John	Oconnor	get rid of the FCC
Jacqueline	Oconnor	Will you please stop trying to make the rich more rich while shackeling us peasants (the middle-class) with all the bills! Raise taxes on the 1% and stop allowing them to buy your vote!
Mary	O'Connor	I can't afford super high-speed internet. What is wrong with these greedy people?
Kevin	O'Connor	I strongly believe that the internet needs to be reclassified as a public utility similar to the phone system. A public utility in 21st century form, not 20th century. Keep the info superhighway open to all, not just to the highest toll payers!!
Willa	O'Connor	Open internet is essential to democracy!!
Elizabeth	Odear	To prevent net neutrality is to prevent free speech
Stephen	Oder	Opposition to an open and free internet can only come from enemies of the people.
Kelly	O'Donnell	Please keep the internet fair.
Kevin	O'Donnell	
William'	Oehlkers	We don't need special privileges going to the well off. Keep one speed for all. This is the best way to see that the internet is made available to groups and individuals at various levels of development.
Tim	Oertli	
David	Oetjen	Keep the Internet neutral.
Lance	Ofenloch	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
James	Ofsink	Please pledge to advance the principles of "net neutrality" which are well defined. "Open internet" is a meaningless term.
Edward	O'Gara	
Kenjalin	Ogata	We need real net neutrality, not just another huge instance of corporations and their money winning out over people. Please listen to what Americans want, and do what is fair, accordingly.
Robert	Ogden	Please keep the internet free and open. Thank you.
Sean	Ogden	This will stifle innovation
John	O'Halloran	Our systems are slow now; think what they will be like when the corporates push their way in to grab their feast of band-with... It cannot be allowed by the FCC.
Margy	Ohring	
steve	ohrn	It would be terrible loose control
L	Okamura	Do your job, protect the American people. Do not choose the corporations greed over the public good.

Kathleen	O'Keefe	The internet is an information highway. There should not be one speed for wealthy people/corporations and another for the rest of us. Do what is right!
Lucinda	olasov	Net neutrality, open internet are essential. Reclassify broadband as telecommunications!!
Jose	Olavarria	The internet was R&D'd by Federal Government using our tax dollars and it should not be commercialized for corporate profit or control. Net neutrality should be protected for the public use of all Americans.
Frank	Olbrish	
Michael	Olcsvary	A "tiered" internet would mean the end of the internet as a useful resource. Instead, why not devote your efforts to making broadband faster and cheaper, in line with other industrialized nations?
Jan	Oldham	
Michael	Oleary	Don't change the internet. It is not broken. Please just return the bribes that large corporations have given you to change the rules.
Dale	Olen	
Alex	Oles	
Grace	Olin	
Emilie J	Olivares	Please keep internet neutrality by not allowing the purchase of fast lanes by big telecom corporations. Please do not sell the internet to the highest bidders. Please keep freedom of communication for the people.
Reed	Oliver	Open internet is required to allow equally fast access to all, with the exception that faster access packages could be selected. Companies cannot regulate which provider gets fast access while others get slow access.
Nancy	Oliver	The FCC's plan for fast lanes is anti-democracy, anti-American and totally unacceptable. Don't sell out to corporate profiteers. Protect our rights and keep the Net fair and neutral.
Anthony	Oliver-Smith	Maintain net neutrality. Acting otherwise further deepens the control that corporations have over every aspect of our lives. If you ignore these protests, it further confirms the betrayal of the people in favor of corporations.
Lynne	Olivier	First it will be the slow lane, then it will be some other way to gain more control of what people are able to see, read, hear and know about. NO NO NO NO NO NO NO NO NO NO. Now more than ever we need voices of dissent!!
Elmer	Ollikkala	
Julia	Olsen	All voices need to be heard equally on the internet. No fast lanes!
Ginger	Olsen	Allowing fast lanes on internet would mean I can't get my questions answered by free internet. I depend on this for my writing. Don't allow it.
Jeanne	Olsen	We need REAL net neutrality.
Ronnie	Olson	Don't mess with the Internet!!!!
Gene	Olson	Please reclassify the Internet as a telecommunications service and re-establish net neutrality. Another alternative would be to require all ISPs to be independent entities, not entities owned or operated by media companies.
Margaret A	Olson	The internet must remain available to every citizen. Control of the internet should not be consolidated in the hands of a few conglomerates who can dictate prices and thereby limit availability and content.
Tom	Olson	The Internet should not be for the wealthy and corporations. We should all have the same access.
Martha	Olson	
Scott M.	Olson	
Andrew	Oltman	We need REAL net neutrality!!
Joy	Om	
Polly	O'Malley	Keep the internet free and open by giving ALL OF US equal access. DO NOT implement this terrible, discriminatory 2 tiered idea!
Patick	O'Meara	I am so tired of America being run for the wealthy and the Hell with the rest of us. The Internet is one of the few last places of true freedom to explore. Most television and radio are designed to dumb down us lowly peons. Now the Internet?
Paul	Omin	
Elizabeth	Onan	it's America, Fast lanes for everyone.
Kathleen	O'Nan	
Michael	O'Neal	Please do not allow this bill to pass that would allow large telecom companies decide how fast certain websites will stream. The internet is a utility and should be protected from abuse by the cable companies, which have a monopoly in most markets
Kathleen	O'Neil	Selling fast service lines to big corporations is totally unacceptable... You will destroy the best thing we have going.. the only level playing field in our lives.... Kathleen O'Neil
Robert	Oneill	keep internet open and free
Michael	O'Neill	HANDS OFF THE INTERNET!! YOU ARE NO MORE THAN PIGS AT THE TROUGH!!!

Debi	O'Neill	
Judy	O'Neill	
Brian	O'Neill	
Laurie	O'Neill Tucker	Please preserve net neutrality. Act on behalf of the citizens, not on behalf of a few corporations who seek control of the internet for financial gain and to possibly exert undue control over political and other speech.
Kathleen	Opon	It is totally unfair to give preferential treatment to more wealthy customers. My family already struggles with inconsistent internet speeds and our bill isn't cheap. Don't stifle those of us who are not wealthy!
Kathy	Oppenhuizen	
Gerald	Orcholski	
George	Ordal	
Marcia	Oreilly	I believe telecom companies can be compared to telephones. A person can call and talk to anyone they desire. Why should there be interference when telecom is just another way of communication.
Kate	Orenic	Net Neutrality must be preserved !
Lynn	Orion	
Janet	Orlando	I respectfully ask that the FCC does NOT allow fast lanes for ANYONE, most of all the corporate giants who will undoubtedly use it to their own advantage and at the expense of freedom of access for the public.
Dominic	Orlando	
Stan	Orlowski	Keep Internet open and decluttered of commercialisation, to be used as a tool to enhance mankind though science.
Mike	Orndoff	OPEN and EQUAL FOR ALL!!! Thank you.
Mary	Ornee	
Manuel	Ornelas	
Carlos	Oropeza	
John	O'Rorke	A two tiered system is not in the best interest of education or students. As an educator I think an open internet is the best way to foster creative thinking and learning to promote a more competitive future generation of Americans.
Walter	Orouke	
Patrick	O'Rourke	Fast lanes for wealthy carriers is antithetical to what the internet is supposed to be, i.e., an equal forum for all.
Pam	Orr	I am one of the millions who are of the 98% in this country. I live alone and am connected to family, friends, news, updates, medical research, Google, Wipikedia, etc., by the internet. Please do not interfere; the internet is my lifeline!
John	Orr	
David	Orr	
Stephen	Orsary	Keep Net neutrality. Don't be mercenary and sell the Net to the highest bidder. Do you really want to widen the gap between the rich and ordinary people?
Manuel	Ortega	
Lillian	Ortendahl	
Suzanne	Orth	Keep the Internet free for all!
Fred	Orth	Leave alone what works, everything isn't about money
Ricardo	Ortiz-Joseph	What they're trying to do is wrong!!! The internet should be free and uncontrolled!!!
Margo	Orton	
Kevin	Osborn	Please retain net neutrality, thanks
Susan	Osborn	
Roger	Osborne	Not everything in America should be a business. Telecommunications should be government controlled, non-profit for the benefit of all citizens. What a disaster the prison and legal system has become once it became a business, greedy for more and more.
John	Osborne	
Rue	Oseas	The internet needs to be a place of free exchange of information- limiting it would limit the potential of humanity. The internet is the way it is for a reason, and the world won't be the same if you change something so central to the internet- neutrality
Karen	Osipoff	
Rhea	Osland	Stand with the public - don't let major telecom and cable companies control what we say and what we can see online. Stand up for REAL net neutrality.
David	Osterhoudt	
Michelle	Osterkamp	

Gary	Otteson	Creating tiered internet lanes will be a crippling blow to United States independent businesses in ways you folks seem not to have imagined. For everyone's sake, please don't do this. To hand this tool to the rich and powerful will deaden our country.
P.	Otto	Censorship in the form of slow lanes and fast lanes on the internet is wrong
Richard	Ouren	
Willaim	Ouweneel	
Larry	Overbee	More of "BIG" gov. taking our freedom! What's next, paying more for internet, as if we aren't paying enough now!
Cynthia	Overton	
Craig	Owen	Leave the internet alone. It has brought freedom and success to untold millions just as it is. Verizon and others like them want these unwarranted changes to stop the success of others so they can pick and choose who succeeds; and pad their profits.
Linda	Owen	
Tom	Owen	
Ermine	Owenby	
Delila	Owens	
Xviara	Owens	
Katherine W.	Oxnard	My husband owns a small commerce company. The new "fast lanes" would put his e-tail clients in the slow lane. That means a slower economy and worse service for consumers. This terrible idea should be nixed!
Susan	Ozawa	
Flo Nell	Ozell	Keep net neutrality. It is urgent for the public.
Greg	Pabst	The government gave us all the internet, and in the spirit of Declaration of Independence, all of its users should be equal.
Michael	Pabst	
Carolyn	Pace	If this happens, once again the "common people" will lose. What has happened to our country? An equal opportunity internet must prevail!
Ann	Pace	
David	Pack	NOT ANOTHER SELLOUT TO CORPORATE AMERICA! KEEP REAL NET NEUTRALITY!
Michael	Packer	Effective democracy needs a free and open interchange of ideas, irrespective of a person's economic standing. The current proposal would pave the way for decreasing discussion due to slower speeds, etc. for different corporate offerings, all at a price.
Christina	Pacosz	I already spend sixty bucks a month for my internet and really would like to pay less. Some people can't afford such charges now!!
Grace	Padelford	
Ray	Padgett	PLEASE! DO not sell our public airwaves to anyone.DO we sell to the highest bidder, the right to go 200 MPH on our freeways???? Thanks! Ray,
Doug	Page	The cable company's and wireless carriers have done enough to stifle competition!
Kris	Pagenkopf	Major telecom and cable companies cannot be given unprecedented control over what I can see and say online. We cannot allow fast lanes for the few while the rest of us will suffer.
C. Rynne	Pages	The internet is already inundated with advertising, and we have to pay a sizable monthly fee for service, do we really have to ruin this the way everything is ruined within a decade in the US? What happened to the country based on freedom?
Vic	Paglia	
Rodney	Paige	Freedom of speech and the ability to stand for what one believes in is a indelible HUMAN RIGHT, not a privilege to be determined by large media corporations, like telecom and cable companies.
Gregory	Pais	
Peter	Paladin	
Michelle	Palladine	
Jeffrey	Palma	
Malvern	Palmer	Don't sell us out to the highest bidder
James	Palmer	The internet should belong to the people, not to a few mega-corporations who milk us for all they can. The internet is a public utility that should be regulated in the public interest.
Carol	Palmer	This is a democracy, not a corporatocracy!
Francis	Palmer	
Matt	Palmer	
Joyce	Palmer-Fortune	keep the playing field level.
Laurie	Palmeri	
Deborah	Palmisano	
Sara	Pandolfi	We need REAL net neutrality. NO FAST LANES!
David	Pangaro	

Maneesh	Pangasa	Without Net Neutrality we all lose. Big media can pay for faster access and everyone else is relegated to a slow lane.
Peter	Panizzutti	Everyone should have equal access to the internet. The criminal corporations shouldn't be given preferable treatment just because they are rich.
Caroline	Panzer	The internet is the property of all; Money does not warrant advantage of use or benefit.
Max	Pappas	In Europe they have even higher speed connection than we can get in the USA for less money. WHY IS THIS HAPPENING? This is criminal! If the FCC permits paying for higher speed connections they should be fired.
Florence	Pappas	
Alan	Papscun	Support a neutral net for all! Level the field!
Ernest	Paquet	
Jeanne	Paradise	do not let another step into inequality happen! Our democracy desperately needs to demonstrate protection of the fair and equal rights of all.
William	Paradise	
Marco	Pardi	
Elaine	Pardoe	
Mary-Lou	Pardue	This is a public good that must be shared evenly!
Jai	Parekh	
Fran	Parfitt	
Dharry	Park	
Mi-Yeon	Park	
Desiree	Parker	Don't give the internet to the highest bidder. The public will be the losers.... AGAIN!
Dan	Parker	Net neutrality protections for consumers are the only way to keep the unbridled greed of ISPs in check. What we have to remember is that we the people own the airwaves; we own them & The FCC is there to serve us.
Natalie	Parker	No special privileges to corporations and wealthy individuals! Net neutrality for all!
Neal	Parker	The FCC has permitted enough media outlets to monopolize and steal from the public that which should be freely available to all, information. Stop currying favor with the big money and do the job the FCC was created to do, protect the public
Lynn	Parker	Urging net neutrality for all people.
Amy	Parker	
Marie	Parker	
James	Parker	
Matt	Parker	Who do u work for, the public interest or big biz? Lawyers and Money? Yourself? Do the right thing and preserve equal access to information.
Robert	Parker Stellato	SINCE THE U.S. GOVERNMENT PAID FOR THE INTERNET TO BECOME A REALITY WITH TAXPAYER DOLLARS, THEN IT BECOMES THE DOMAIN OF ALL THE HUMAN BEINGS NOT JUST CORPORATIONS AND EQUAL ACCESS IS THE ONLY ACCEPTABLE OPTION!!! CORP'S CAN'T HAVE PRIORITY OVER PEOPLE!!
B. Barbara	Parliman	
Annmari	Parmenter	
BRETT	PARMENTER	
Lisa	Paron	Can't we just keep this open and honest and available equally to everyone on earth with internet access? That's what has made it what it is.
Steven R	Parr	Keep net neutrality. No fast lanes unless everyone has a fast lane. Please! No matter how much money the companies offer directly or indirectly through campaign donations or etc. SP
James	Parr	
Robert	Parrish	Active in cell tower location services for many years & a long time user of wireless services. Neutrality is the only way forward for USA.
Nora	Parrish	Net neutrality is a necessity for free speech. Reclassify broadband internet as a public utility immediately.
Bruce	Parsley	
Adina	Parsley	
Rodger	Parsons	A equal free Internet is the best way to preserve opportunity and innovation. Adding inequity to cyberspace will slow the engine of commerce.
Brandon	Parsons	Internet FREEDOM is of the UTMOST IMPORTANCE. Please do what is RIGHT and allow for a FREE and CLEAR internet. Anything other than that will be unjust. The internet is VERY USEFUL and NECESSARY for EVERYONE. PLEASE do NOT CENSOR it!
Bill	Parsons	Net neutrality should not be limited. Commercial high speed lanes on the Internet will simply be one more example of the economic disparity that is growing in this country The FCC should not establish non-neutrality rules!

Marilyn	Parsons	Please DO NOT allow big companies to control the internet -- the internet is a precious commodity, still full of new possibilities that will be limited and control by big money, instead of the people. Please don't cave in again.
Gail	Partain	We need the internet to remain free and unhindered. Complete net neutrality. Thank you.
Rev. Daniel	Partiss	the 2% already have everything else leave our internet alone...
Richard	Partlow	We need real net neutrality.
Susan	Partnow	In this information age, easy and equitable access to the internet is like access to clean water - essential! Please don't let corporate greed break down our democracy.
Ronald	Partridge	
Michael	Partsch	It is not fair to let money determine how the internet works. Everyone deserves equal access.
Marjorie	Pasch	The internet needs to remain a level playing field, with no tiered levels.
Pamela	Paskell	We used to have free television, now we pay for that and pay to watch commercials also. They get plenty of ads on the free Internet to hound the consumer to death. Don't let them ruin the Internet.
Judith	Passmore	I've read and heard so much lately about the benefits of net neutrality for us all...don't let greed keep this country from sharing the benefits in process in Europe, China, etc. Read Jeremy Lifkin!
Adam	Pastula	The power in the internet is the neutrality. The fact that an underdog can see and do what the next person can. It levels the playing field and creates ingenuity. Anything else only benefits the pockets of telecom companies.
Rashid	Patch	
Evans	Pate Jr	Allowing cable companies/satellite to establish so-called "fast lanes" for certain uses for a fee is NOT net neutrality. It IS once again pandering to corporations and the 1%.
Prachi	Patel	
Lynne	Pateman	
Richard	Patenaude	
Ragubathees	Pather	This is the single greatest tool that we have to promote democracy, our life-blood as a nation. Corporate interests do not have to uphold democracy, as we have seen so often
Judy	Patrello	
Dian	Patrick	This should not be just for large corporations but should include smaller private internet providers. There are already enough benefits for large corporations.
Douglas	Patrie	
Janet F	Patruno	Net Neutrality PLEASE. We have it now, it works fine just the way it is and we want it to stay that way. Please make sure it continues. Thank you!
Steve	Patt	
Marian	Patten	For once protect the rights of the everyday person. Don't side again with the corporations.
Robin	Patten	I am disabled, and certainly cannot afford to pay for faster service than I already have. I am sure I am only one among many in that situation.
Thom	Patten	It has to stop here. Keep the internet free from dollar-driven corporations.
Ethel	Patten	Please don't ruin what is working so well. We've already seen the public schools and the public libraries suffer. We need a public internet for ALL users equally.
Ann	Patten	
Emily	Patterson	Does everything have to be about making money? The Internet should be equal opportunity! Net neutrality is wanted and needed by THE PEOPLE.
Kenneth	Patterson	ISP providers already have the average consumer by the balls...don't make it worse by allowing a multi-tier environment. We should be looking for ways to rein them in instead of giving them carte blanche to screw us even further.
Barbara	Patterson	It would be unconscionable of you to allow telecom companies to sell higher speed internet access to the highest bidders, thereby relegating small businesses, charities and service organizations to slower speeds. Don't do it!
William	Patterson	The Internet is the public utility of the 21st century. Just as we can't allow corporations to control gas, electricity or water, we cannot allow the giants of Internet industries to control its information flow.
George	Patterson	
Cynthia	Patterson	We, the peoples' money was used to to start the internet. We deserve free access as part of the deal in using our collective money for the development of the internet. Keep the internet free of marauding corporate invaders social deviant behavior.
Vincent	Patti	I'm heartfully saddened by the loss of my country. There's no democracy without net neutrality.
Linda	Patton	The imputed mandate of Govt Agencies protects Americans, not Corps! Lures by industry for, post-retirement = illegal bribes! Do the right thing & reject fast-lanes! Democracy = equality! Corps already control enuf of our lives; dont be 'bought!'
Micki	Patton	Very little remains of our democracy due to corporate take over. Please don't let the internet be the final stake!

	pattymichaels	Net neutrality is imperative to a true democracy.
Lynda	Pauling	Please keep the internet fair for all. Fast lanes for the few mean slow lanes for everyone else. This would confine alternative, independent, and non-profit voices to the second tier. The internet should be declared a part of the commons.
Irv	Paull	Don't let the do it.
Austin Ted	Paulnack	
Greg	Paulsen	Like the Interstate Freeway system, the internet must allow Equal access to all. There are no special fast lanes for Walmart' or UPS trucks, and the same must stay true for Amazon or Apple. Keep the web Open.
P.	Paulson	Telecoms are borderline monopolies. People have little choice as to providers. If you allow the new rule, telecoms will have a greater control of the supply and trade of the internet, becoming a third party in controlling the flow of internet activity.
Denise	Pavao	I need my computer for WORK - it is how I earn my living. Giving preferential treatment to some is patently UNFAIR.
K.	Pavelec	
Ernest	Paviour	
Karl	Pavloff	The American people, those who pay your salaries, demand a free and open Internet. We demand Net Neutrality!
Max	Pavlovich	protect the FREE internet!!
John-Mark	Pawlowski	Please side with the people, and not corporations. The internet is a precious resource for all of us.
Christine	Payden-Travers	
Susette	Payne	I am against allowing fast lanes of internet access to be given to major cable and telecom companies...Keep the online access for all at the same level.
Richard	Payne	The internet needs to be available to everyone equally--it is central not just to certain business interests that stand to gain from making this distinction in levels of service, but to all of society today.
Arthur	Payne	
Robert	Payne	
Claudia	Pazmino	People are struggling as it is already. Charging for faster internet will definitely not benefit the people of this nation. Stop with the greed and love thy neighbor. Leave the internet as it is. Thank you, Claudia
Suzanne	Pe??a	
Claudia	Peace	As a self employed person, it is important that best and fast service be provided to not only small businesses but students, other professionals and the average person who depends on the internet for information to assist with their daily living.
Marge	Peacock	Keep freedom on the internet!
Nathan	Pearce	The issue isn't "fast lanes for the rich", because we already have those (\$19.99/5Mbps, \$39.99/30Mbps... save more when you bundle your phone and TV!). This FCC proposal grants private billionaires more censorship authority than China's CCP has.
Joe	Pearlman	Dear FCC, As a long time software engineer, I believe that Net-Neutrality is so very important. The Internet should not go to the highest bidder and everyone else in the slow lane. Please support Net-Neutrality. Please. Joe Pearlman
Gary	Pearse	The access to the best internet service should be equal for the poor, middle class, and the more fortunate, for we all deserve equal rights no matter of our financial status.
Bruce	Pearson	
Sandra	Pearson	
David	Pebra	
Zoe	Peck	Please don't take the internet access in the wrong direct - there should be NO tiers! It should be treated like a utility
John	Peck	
Sally	Peck	
William	Peck	
Rolf	Pedersen	I, also, paid the taxes that underwrote the development of this technology for the profit of telecommunications corporations. We all deserve unhindered, neutral access.
Paul	Pedersen	The internet is a public resource similar to the radio spectrum. We cannot allow private control over what can and cannot be transmitted.
Annette	Pedersen	
Gillian	Pederson-Krag	
Carol	Peeples	I strongly encourage the FCC to oppose efforts to create different usage levels for the internet, dependent upon the wealth and power of the user.
E.	Pekins	This is discriminatory and degrading what has become part of the commons.
Judith	Pekowsky	Keep the internet as it is---

Joan	Pelc	A free and open internet is needed in a democracy. An internet "fast lane" would help undermine democracy and would be a burden in so many ways. Please do not do this, it is a travesty of democratic principles.
Maryann	Pelikant	
Jane	Pence	
Murray	Pender	Why am I not surprised if FCC Chairman Wheeler gives everything away to the ISPs. His background was exactly what the ISPs wanted and Wall Street will certainly get its money's worth.
Hugh	Pendleton	No special channels for companies!
Alexa	Pengelly	Please don't privatize the internet. It's become an absolute necessity for living like driving or banking or having a home. We need good sound policies that make the internet usable for all. Workers make corporations rich - don't make workers pay.
Yanula	Pengenika	Whatever happened to our freedom?
Francis	Penkava	The limit of fast lanes would be completely anti-American. The takeover of our nation by so mega-companies is destroying us on a number of fronts. Limiting fast lanes is essentially denying freedom of speech and communication. Please, say no.
Lyman	Penning	
Anne	Pennington	I'm low-income retired. I don't even have cable TV and rely on my computer for so many things. I want to have free access to what the internet offers. Thank you.
Andrea	Pennisi	
Bette	Penny	Enough of the BIG-WEALTHY cable companies getting bigger and richer at expenses of us little-guys...we deserve better!!
Alan	Pensiero	Please keep the internet open--it is the only voice of the people left as we cannot trust voting or the media anymore. Thanks!
Karen	Peralta	
Amylia	Pereira	
Claire-France	Perez	Two lanes of speed? The US counts already among the slowest delivery of internet in the world, all for the trouble of making some one a lot more profit. Two tiers? Like first class or scullery? What does that make me, chopped liver?
Thomas	Perez	we need REAL net neutrality
William	Perkins	"Big money" telecom and cable companies should not be allowed to take the fast lanes of the internet while all the non-profit and independent news and viewpoints will be given the "slow" lanes of our marvelous open internet.
James	Perkins	Do you job. Protect the last bit of freedom we have left. If you start making rules you will destroy the internet for ALL the people.
James	Perkins	The cost of using the internet already eliminates a major portion of the citizens from maintaining personal access to the internet and denies many access to vital information for education and political awareness that keeps us informed on the issues...
Joel	Perkins	
Evan	Perkins	
Maryann	Perkins	
Mike	Perkins	What is proposed seems very much North Korean from what I'm able to ascertain. Another, high speed/quality for the rich, inferior/slow for the poor, deal. We don't want these corporate crooks deciding who gets their access and at what speed.
Simon	Perkoff	Real net neutrality is a necessary tool to fight for economic, intellectual and spiritual equality in America. NECESSARY FOR JUSTICE AND EQUALITY>
Stephen	Perlman	
Lewis	Perlmutter	Do some good for Main Street America. Don't sell high speed to special interests. They will raise prices .
Todd	Perlmutter	
Richard	Perras	
Miriam	Perrin	
Edward	Perrin	
Jeffrey	Perrone	Don't compromise net neutrality!
Paul	Perry	My Internet connection is slow enough as it is. I don't need to be put in an even slower lane!
Ed	Perry	The internet is a public forum and must remain so. There must be equal access for all and equal parameters for all.
Kristian	Perry	
Rev. Jisho	Perry	
Roger	Pervere	Please stop implementing fast lanes on the internet for the rich, my internet is very slow and their planning will make mine even slower.
John	Pesec	

Mike	Peterhans	All users should be treated equally. Don't allow the deep pockets to push the rest of us into the gutter. KEEP THE INTERNET AND INTERNET ACCESS OPEN TO ALL ON THE SAME TERMS.
Diana	Peterlin	I am absolutely opposed to new corporate control over the Internet. The People demand REAL net neutrality.
Kathy	Peters	
Patricia	Petersen	
Christiaan	Petersen	
Mary	Peterson	Big money has bought a lot of politicians. In our land of the free, we need to preserve communication from being a commodity solely controlled by money or purchasing power.
Mary Jane	Peterson	Dear FCC, Citizens need net neutrality. Please take the good of all into consideration in your decision. Mary Jane Peterson
Macauley	Peterson	I want to see Net Neutrality preserved. Major telecom and cable companies should not have special favors doled out by the FCC, which is tasked with protecting the public interest, not the financial interests of private companies.
Roger & Sylvia	Peterson	Keep your hands of the internet!
Erin	Peterson	Please do not allow major telecom and cable companies to have unprecedented control over what we can see online. We need real net neutrality!
Barry	Peterson	This will continue to lead to corporate oligarchies. It will have the effect of limiting free speech on the Internet.
John	Peterson	
Eugene	Peterson	
Norma	Peterson	
Kyle	Peterson	
Jodi	Peterson	
Eloise	Peterson	
Glenn	Peterson	We need real net neutrality. No fast lanes. We also should have faster speeds and better pricing!
Rox	Petoskey	
John	Petrak	The internet availability should be the same for all.
Ilene	Petranek	Please leave our internet alone. We are the people not a corp. thanks
Chris	Petree	
Cynthia	Petrich	
John	Petrie	Just wanted to let you know that I support an open internet. Please support "net neutrality." Thank You
J	Petrilla	We need REAL net neutrality. Do not allow discrimination based on wealth.
Gabrielle	Petrosian	
Carl	Petrovato	
Veronica	Petrus	
Barbara	Pettard	Once again there are a few who want the many to pay them for the ability to breath the air or feel the sun and in this case use something that should be made available to each and every one of us for the same amount, just because right thing to do
Corinne	Petty	
Carolyn	Pettis	
James	Petty	the internet was created first for national defense and then scientific and educational use. the telecommunications and internet entertainment companies do enough as it is - profits and dividends are generous. no more corporate welfare is in order!
Jamaka	Petzak	The Internet has changed our world forever, in many ways for the better; it is the universal method of communication for most people, and it must remain egalitarian.
Nadine	Peyrucaïn	There is too much inequity in the USA. Wages have been depressed for 30 years, don't further disadvantage the majority of the young, older Americans and visitors to our country.
Sheila	Pfafflin	
Bruce	Pfeiffer	
Gregory	Pfister	
James	Pfitzner	
William	Phelan	The internet is a public utility--for all of us to use, equally. Fast lanes for some means slower lanes for the rest of us. Keep the internet free and equal for all.
David	Phelps	Let freedom ring
Cc	Phenix	
Josh	Philibert	Dear FCC, The internet is yours, mine, and ours. There is no reason to allow service providers to offer two types of internet access. Please, serve the citizens, not the corporations, and do not allow changes to internet access speeds. Thank you!
Daniel	Phillips	An open internet is critical to our society.

Betty	Phillips	It ain't broken, so it doesn't need fixing.
Ken	Phillips	Keep democracy alive. Leave access open so it is not run by the big corporations.
S.	Phillips	Keep the internet open access and free
William	Phillips	Keep the playing field level!
Ben	Phillips	My opinion as a software developer is that net neutrality is essential.
Chip	Phillips	The internet is a public utility now, Our democracy requires net neutrality.
Jamie	Phillips	The only priority users of the Internet are those who are disadvantaged or disabled and need something extra to keep up (see: rural, tribal, and/or handicapped people). Help them in earnest, not as a pretense to prioritize the rich.
Delores	Phillips	
Charles	Phillips	
Walter	Phillips	
Matt	Phillips	
Linda	Phillips	Why is the FCC getting to make these choices? It seems the FCC has too much power in this regard.
Laureen	Picciani	
Tony	Piccirillo	Dear FCC, PLEASE -- NO INTERNET FAST LANES !!! We need absolutely true and honest net neutrality -- not some biased version proposed by Comcast, Verizon, etc. Tony
Joe	Pickering Jr.	The U.S. has many fading freedoms don't make the Internet another one !
John	Pickett	It's hard enough to get info to come up quickly on the Internet without the FCC making it more difficult to get good service for all of us. So please don't go forward with this proposal.
Ann	Piekarz	
Dillon	Pierce	Ever since its inception, companies have only seen the internet as a place where profit can be made, and not as a forum for communication and the spread of ideas. We cannot allow any one entity to have complete ideological or financial control over it.
Sharon	Pierce	please keep the internet open, and don't allow corporate telecom titans like Verizon and Time Warner Cable to sell fast lanes online to the highest bidder.
Hiram	Pierce	Please preserve net neutrality. Our democracy has many challenges these days and doesn't need another one.
Elizabeth	Pierce	The internet is an electronic national highway system and access cannot go to the highest bidder.
David	Pierce	This is all a threat a threat against the first amendment. The long term results would be the poor would not be able to compete with the rich and everyone else would be living in a third world country.
Brian	Pierce	
Nicholas	Pierotti	
Jean	Pierre	Access must be available for all w/out discrimination & bias toward the majors.
Kim	Pierson	Equal access to the internet is important to all of us. The internet has become entwined in all that we do each day. Allowing some to determine that because of wealth they have a more significant need is a travesty.
Rick	Pietrusiak	Our democracy requires that rich and poor, individuals and groups have fully equal access to the internet.
Joan	Piken	
James	Pilewski	Real net neutrality is fair for all. Keep the internet accessible for all; keep the playing field level!
Gloria	Pilkington	The internet must be kept free and equal for all.
Ina	Pillar	
Douglas	Piltingsrud	So, you don't believe in the Constitution as originally written. Is your belief in the collusion of government and corporations?
Joslyn	Pine	
Preston	Pingree	You are poised to remove one of the last bastions of free speech in the U.S. Please don't do this! Everyone should have equal access to the internet, regardless of corporate standing.
Thomas	Pinkert	
Walter	Pinkus	The telecom companies who connect all of us to content suppliers on the Internet should not be allowed to interfere in that connection and transmission process.
Patricia	Pinski	Corporations are too powerful in our country and already have too much control over what information people are allowed to hear. Please don't let corporations like Verizon or ComCast control the Internet.
Carol	Pinson	Most people and small businesses could never afford the "fast lane". The internet in the United States is slow enough as it is. Please classify the internet as a telecommunications service, so it can be regulated in the interests of all.
Joan	Piowaty	Please keep the internet free from the corrupting influence of money. Let it work equally for everyone.
Janna	Piper	
Stephanie	Pipes	

Patricia	Pire	Support fast Internet lanes for ALL!
Alison	Pitale	
Susan	Pitcairn	Selling faster service on the internet to big business is just one more way to encourage corporate dominance over true democracy in our society. It's step in the wrong direction and you must surely know it. Please step up to the plate for democracy now.
Bob	Pitchalonis	
Charlotte	Pitt	
Laurie	Pittman	
Nancy	Pivarunas	Regulate the Internet as a public utility which provides universal, low cost access to vital communications for voters, educators, students, freelancers, small businesses. Big Money has already squeezed Americans nearly to death.
Giovanni	Pivrotto	Internet needs to be considered untouchable by self-indulgent corporate influence. Sick and tired of corporate control of our lives. Stand up for the people of this country, grow some balls!
Robert J.	Pizzorno	No fast lanes on our public internet highway!
Judith	Planchon	
Lewis	Plate	The internet must remain totally free fro everyone. Do not allow corporations such as Verizon and others to use the internet for additional corporate profit. They make enough from me already.
Robert	Platt	Net neutrality is critical to democracy.
Richard N.	Platt Jr.	
Carole	Plesser	
Ted	Pletenik	
Bill	Plieseis	Why would you even consider this? Please, don't widen the gap between the Have and the Have Not.
Cynthia	Plockelman	fast lanes are a liability ---- will only help a select few ----- leaves out the rest of the world!!!! PLEASE DO NOT DO IT!!!!!!
Larry	Plotkin	It is time that FCC recognizes that ALL people NOT just businesses are and should be allowed to have access to faster speeds without being blocked and reduced to speeds that are slower speeds. People need fast speeds.
Ronald L	Plue	
Dorothy	Plummer	These companys do not need control it will cost the consumer money
Loretta	Plunkett	Please, please keep the internet democratic and fair! Don't let BIG MONEY hijack it. Thank you, Suzanne Plunkett
Robert	Plunkett	
Linda	Pockrus	
Harold	Poe	The Internet belongs to the people equally. Let corporations develop and use their own Internet. Keep them from ruining our Internet.
Rebecca	Pois	Please protect our most basic freedom that our brave men and women are dying to protect.
Marc	Pokempner	The internet is the basis of the new worldwide economy - don't let profit hungry corporations screw it up!!
Donna	Poland	Please do not change the internet. Real net neutrality is what is most important to all of us.
Albert	Poland	
Jared	Polens	
Alice	Polesky	The Internet is not for sale. It wasn't created for profit; it was created for communication and for creativity. To take the power of the Internet away from the public and give it to for-profit companies is state-sanctioned censorship.
Barbara	Polhamius	
Marguerite	Polidori	If you think eliminating freedom of use of the Internet will help our country, just look at those countries who have done so. Freedom in America is a huge reason why everyone wants to come here. Do not sell out to those who have the riches!
Angela	Poling	In a land where everyone is allegedly equal, it looks like those that have the most take the most from others
Stephen	Poling Jr.	Through the internet is how we communicate now. This is the new "town square" where we exchange ideas. To create a hierarchy where only those who can afford it are able to participate goes against Democracy! We need net neutrality!
Nick	Politakis	We need REAL net neutrality. Our access to the internet should not be controlled by these monopolies.
Michael	Polite	
Gene	Polito	
B G	Pollack	We need REAL net neutrality. These corporations are taking over the country and this needs to stop. We don't need fast and slow lanes, we need equal opportunity lanes.
Alan	Pollard	

Tom	Pollock	The internet should be open, transparent, and, once again, not the property of huge corporations! When is the government going to do something for the citizens instead of always cowering to the big money corporations?????
Beverly	Pollock	
Jeri	Pollock-Leite	
David	Polson	It is crucial to our as yet free society to keep internet access open and available to everyone, regardless of their economic status. The fact that the telecom giants can influence this issue with their money shows that they don't need even more!
Beth	Pomerantz	Our nation's first amendment is in part about freedom of speech. Allowing the free flow of information to be restricted by those with deep pockets threatens all of us. Money should not dictate access.
fred	pomerantz	
Leigh	Pomeroy	
Bonnie	Pomfret	I was recently surprised on a trip to Korea where the internet is faster. We need to stop protecting vested interests and open up the American internet!
Jane	Poncia	PLEASE - No tampering with an internet that is democratically assigned - AND FREE FROM COMPANY INTERFERENCE
Barbara	Pook	Net neutrality is essential to education and entrepreneurship. These are fundamental concepts that must be upheld and maintained. Do not sell out
Maureen	Poole	
Geoff	Poor	Preserve an open and accessible internet, and allow FCC regulation. The internet is just as much a public necessity as a telephone, which is regulated.
Elsie	Pope	The internet has made it possible for 'every man' to take part in national and international events. This is a VERY GOOD THING. Please do not allow big corporations to deny us our input to things we have an interest in.
Tom	Pope	
Glenn	Pope	
Marna	Porath	We need REAL net neutrality. We, the people in the United States, will suffer if the FCC decides in favor of major telecom and cable companies' profits. Don't let them control what we can see and say on the Internet!
Ralph	Porfido	Let us keep internet access democratic--free of covert corporate control and plutocracy.
Micaela	Porta	Faster lanes for a few means slower lanes for the rest of us, many of whom rely on the internet for timely information and organizing. We need REAL net neutrality!
Joseph	Portanova	Net neutrality is essential to a functioning democracy.
Florence	Portell	
Johanna	Porter	Let's keep the internet free and equal for all!
Jan	Porter	Money should not have an influence, zero, in determining how I get to view the internet, other than in a similar way to any utility.
Keith	Porter	Net neutrality is an important expression of democracy.
J Mccune	Porter	This is yet another attempt to sell off what should remain public resources to the highest bidder. STOP IT!
Joel	Porter	
Wayne	Porter	
Susan	Porter	
Lucille	Portner	
alec	portnoy	Saying "NO" to a Citizens United gutting of the Internet. Preserve FREE SPEECH and correct your mistake with Broadband! This is a Civil Right, not a privilege for the wealthy!
Coleman	Posard	One charge fits all = a democratic Internet of, for and by the people we all can believe in.
Gregory	Poschman	The internet has long been considered, and should always be a public resource that is neutral and NOT FOR SALE to the highest bidder. Maintain Net Neutrality! No tiered pricing for transmission speeds.
Madelyn	Posey	Please keep the net NEUTRAL, JESUS CHRIST!
Fran	Post	Business interests should not TRUMP the needs of the rest of us who use the internet - it should be open & equal to ALL of us!
Hillary	Posvar'	
R.	Potasznik	We need net neutrality not fast lanes for the few and 2nd rate service for the 99% Enough of this catering to the rich at the expense of the majority of Americans. Keep the internet free for all.
Earl	Poteet	
Phillip	Potter	Stop handing over more and more control of spectrum and, now, the internet to mega-corporations! "No" to tiered internet!
Adele	Potterton	These corporations must not be allowed to take over the internet.

Cecil	Pottieger	I can't believe that the FCC would allow something like this to happen to America's middle class and all others.
John	Potts Lcdr Uscg(Ret)	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Bill	Potvin	When will the evil of unbridled capitalism end?
Robert	Poulsen	
Vernon	Pouncey	Please leave the internet as it is. Corporations are dominating almost every aspect of American life; to the detriment of our democracy. Don't destroy the fairness of our internet.
Michael	Pound	
Jon	Povill	
Kathleen	Powell	Stop corporate take-overs!
Cornelia	Powell	
Michael	Powell	
Norma	Powers	Hasn't the Supreme Court done enough to middle class Americans?? Do not give this away to the big telecoms!!
Linda	Powers	
Martin	Powers	
Irene	Praeger	Please leave the internet as it is, so that we have REAL net neutrality.
Ken	Prahl	Quit serving your self and serve the people, do not allow fast lanes.
Jacob	Prather	
Nancy	Pratt	Net neutrality MUST BE PRESERVED to maintain freedom of speech and access to the people outside of mass media and corporate control.
Patricia	Prayor	Everyone should have top speed not just large company's who can out bid smaller company's. All of these company's large company's are merging and we will not be able to get good price rates. We are already paying more than we should. So please stop this
Steven	Prchal	
Duane	Preble	
Mark	Precious	Hmmm, didn't Obama run on Net Neutrality? Guess he ran on a lot of things.
Darius	Preikstas	
Myra Jean	Prelle	Net Neutrality supports inovation!
Martina	Prendergast	keep the NET neutral
Stephen	Prentice	Please ask yourself, is this fairness and equality for all?
Marge	Present	
Michael	Presley	The internet should be classified a PUBLIC Utility.
Steven	Presley	
Lou	Presnar	The internet was built on net neutrality, along with a large number of businesses. Why would you sell it out now?
Andrea	Presson	
Robin	Preston-Wright	
Yvonne	Prete	I am 89, living on Social Security, and dependent on the internet for 2/3 of my social and financial life. It will be a loss for me if the Internet belongs to the large corporations rather than the people of the world.
Angela	Preuss	
Ken	Previti	
Marc	Prevost	Keep the internet as it is. We need REAL net neutrality. Top speeds for top profit is not good for the country or its people.
Annie	Prevost	
Candace	Prevost	Why would you consider restricting the internet other than for commercial interest? You and the 5 Conservative Supreme Court Justice have great deal in common you all work for Republican Hatchet men; otherwise you would not tamper with net neutrality.
Margaret	Price	Am praying that you will do the right thing!
Vicki	Price	
Barry	Price	
Robert	Price	
Maureen	Primerano	
Erin	Prince	
Nancy	Pritchard	If large corporate interests controlled the Internet, it would stifle and unfairly restrict lesser companies trying to compete. Also Medical, Fire Police, Governments & all people could be denied free, uncompromised internet access.
Barbara	Probert	Please keep the internet fair for all of us! The very wealthy have enough benefits without adding fast lanes while the rest of us are deprived. Please let us have real net neutrality.

Susan	Proietta	
Cheryl	Pronchick	There's a lot of unfairness in life. Let's keep one thing equal for everyone and not cater to the wealthy. Net neutrality; it's the right thing to do.
Ericson	Proper	I like my internet just the way it is. Protect the populace and keep corporate and transnational hands off the internet.
Mary	Prophet	The internet has been the source of so much of America's innovation. We need net neutrality!
Linda	Prostko	It's a sad day for Americans if this deal is to go through. Our democracy seems to be crumbling around us.....this would be icing on the plutocrats' cake. Totally unacceptable to create fast lanes for those who pay more!
Charles	Proudfit	Do not proceed!hmm
David	Provost	
Clifford	Provost	
Sarah	Prowell	We need open, fair, equal access to the internet -- for all of us. Charging more for faster speeds and better content for the rich will leave the rest of us (the 99%) with slow, restricted access. Fair, equal access & rates should be FCC's priority
Margaret	Prybyla	I am against doing away with net neutrality; it would adversely affect so many people putting them at a disadvantage.
Nicholas	Prychodko	
William D.	Prystauk	
Cindy	Pu	
Stephen	Pucci	
Jeanne	Puerta	
Noel	Pugach	
Linda	Pullano	
Debra	Pumphrey	
Russell	Purcey	
Patrick	Purdy	
Naomi	Pusch	
Joyce	Pusel	
Sharon	Putnam	As an Internet user who believes strongly in the importance of a free and open Internet, I urge the FCC to reclassify broadband Internet access as a telecommunications service, and save Net Neutrality.
Gary	Putnam	
Justin	Putney	Net Neutrality is essential for free speech and commerce on the internet.
Mary	Putterman	
Frederick	Pyter	The Internet MUST be regulated as a utility if America is to remain a player in the 21st Century technology world. Giving in to profit motive for American MegaTelecoms will doom our ability to be competitive in an international context. Save the Internet!
Hinnaneh	Qazi	
Kevin	Quail	The cable companies, unregulated as they are, raise rates whenever they feel like it. They should be regulated like any other utility, not sell speed to the highest bidder. Comcast's purchase of NBC should have made their rates go down.
Mary	Quain	Please don't allow the Internet-created specifically to be a democratic communication tool-become controlled by the plutocracy that is gobbling up so much of American life with alarmingly increasing speed.
Marietta	Quarless	
C.	Quast	
Gerald	Quinn	Don't support those who can pay more over the rest of us.
j	quinn	this may be democracy's last chance!
John	Quinn	
David	Quinn-Jacobs	I have been on the web since it was arpanet. It wasn't good to restrict access then, and it isn't now. Wealth disparity has been growing; access disparity will be a problem multiplier.
Alisa	Quint	
Theresa	Quintanilla	No!
Joseph	Quirk	The internet should not be handed over to big business.
Kathy	R	It is important that the internet access be kept neutral and for all of us---this is what has brought the regular everyday folks able to communicate with each from all over the world. It is another vehicle for understanding.
Barry	Rabichow	
Monroe	Rabin	
Celia	Rabinowitz	Money has been talking very loudly. Don't let the big money people add the control of the internet to the privileged few. Keep the internet democratic.

Mitchell	Rabuchin	The supreme court doesn't care about the little guy, maybe the FCC will come down to earth with some help for the now mostly underprivided America.
John	Raby	
Karen	Raccio	
	rachelherbener	It is just and fair to have a level playing field.
Rich	Racimora	You have been given exclusive use with the idea of giving the best service possible to all and not to decide whom I can view fast and who I can view slow. I should be the one to choose the speed you provide to me, the customer.
Chuck	Rada	The internet should be available for everybody, not just the super rich!
Carol	Radel	
Janet	Rader	The internet should be as free and open as any highway. PLEASE don't let corporations degrade the freedom that we currently experience. Please reclassify the internet so that it can't be sold off to the highest bidders
Regina L.	Rader	
Danuta	Radko	
Bruce	Radzwion	
Agnes	Raeder	
Larry	Rafey	
Barbara	Raffan	
Lisa	Ragsdale	I do not want to be told what I can and cannot do on the internet. I do not live in a dictatorship.
Patricia	Rain	As a small Internet business, I am very opposed to company's with deep pockets gaining control over the Internet. Net neutrality is critically important to keep the Internet for all to enjoy.
Rhonda	Rain	Internet access needs to stay equally available for all Americans. Please vote to keep Internet speed equally fast for all Americans to use. This is an issue of great importance to your constituents, and I strongly recommend that you vote with us in mind.
Dennis	Raines	I want free, open, one-speed internet!
Cynthia	Raiser Jeavons	This is SO important for the proper functioning of America!!!
Patrick	Rakes	We must not allow private corporations (essentially all monopolies, in this instance) to ration or charge different rates for different levels of internet access speed! In fact, the internet OUGHT to be a public utility!
Edward	Ralko	as a government regulating agency PLEASE don't let big business MAKE YOU A SELL OUT
Louis	Rallo	Stop acting lkie republicans.
Krin	Ralph	Please explain to me the reason that large corporations get priority over citizens. Do you get favors from them? Are they more important then the clear majority of people who use the internet? Say NO to to corporations.
Anna	Ralston	
Julianne	Ramaker	You know as well as I do that allowing Telecom giants to offer faster services for additional pay puts small and start up business as a huge disadvantage. Telecom companies make plenty of profits. Stand with Americans instead.
Yvonne	Rambo	
David	Ramey	
Tamra	Ramsey	Please do not allow private corporations the ability to take over the internet! I do not have a smart phone, do not subscribe to the big telecom companies and will be adversely affected by them being in control of fast access to the internet. Thx!
Phillip	Ramsey	
Walter	Ramsey	
Ann	Randall	The Internet was intended to enable communication between people. To give special privileges to the richest players is the crassest form of preferring commercial interests over human beings.
Robert	Randle	
Anna	Raner	I am against separate tiers of access to the internet, based on ability to pay. It should be considered a public utility. I am also against the Warner/Comcast merger and any other mergers by these mega companies.
Russell	Raney	Dear FCC, If your plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Richard	Rankin	please say yes to keeping this country NET NEUTRAL.
Susan	Rankin	We must not have yet another assault on citizen participation in our society. Keep the net open, equal to all, neutral. NOT favoring the big telecom players.
Russell	Ranshaw	If the cable giants want to sell faster service to some users, they ought to build a new "Express Network" and keep their greedy mitts off the network we have paid for over the years.
Craig	Ransom	Please keep the Internet open, without favoritism!

Jill	Ransom	The internet is for all, regardless of income or interest. Place no controls on freedom to access information. Why should those with power control the rest? It's wrong.
Sara	Ransom	We are a democracy -- not a nation run by corporations/big money. Do NOT allow major telecom and cable companies unprecedented control over what citizens (like me, for instance) can see and say online.
Eric	Ranvig	
Catherine	Raphael	
Joan	Raphael	We need a democratic internet in a democracy. Not one that favors those with sufficient money to be able to get a faster internet at the expense of the rest of us!
John	Raplinger	We need real net neutrality
Enrique	Rasmussen	
Jack	Rathmell	Kep the internet open to all comers
Ramona	Ratliff	Please keep the internet accessible to more people.
Ned	Raudabaugh	The net should be neutral, accessible, and inexpensive for everyone. Enough corporatism.
Pamela	Raup-Kounovsky	What a bad idea.
Jay	Rawson	The Internet belongs to all of us, equally. Please ensure this in perpetuity.
David	Ray	Guess its time to reinvest in the US Postal System before too late and reinvest in magazines selling social media as it started in the very beginning. Somehow History in all walks of life repeats it self, just like all the WARS.
Gisela	Ray	It is absolutely vital that the internet stays neutral. I thought "opportunity" is what everyone wants for people to succeed. You are taking a large chunk of that away if you create a slow lane for people who can't pay extra like the big guys.
Gloria	Ray	
Suzette	Ray	
Thomas	Ray	
Franklin	Ray HMC USN Ret (100% Disabled Veteran	Stop the thugery, you need mental help!!
Laura	Rea	
Jacqueline	Reading	we need REAL net neutrality.
Randy	Reagan	we need REAL net neutrality.
Asiad	Real	
Lauren	Ream	
Gail J.	Reams	
Roberta	Rebb	
Louise	Redding	Protect net neutrality.
Lynne	Reder	The FCC used to protect people so that consumers could not be gouged by corporations like Ma Bell. What happened to caring about people more than corporations?
Maryellen	Redish	It is imperative for individuals to have internet freedom. We are paying these telecom and cable companies for their services not to be controlled by them. As a matter of fact since we are paying them we the customers should have control over them.
Liz	Redwing	
Linda	Reed	Big cable companies SHOULD NOT be able to have complete control. I don't want them to have control over what I can see or say online. It should be fair and equal to all companies.
Jason	Reed	No monopolies!
Michael	Reed	no on fast lanes
Robert	Reed	The FCC is supposed to protect all citizens, not collude with big business
Miriam	Reed	
Susan	Reed	
L. P.	Rees	
Lynn	Reese	we can not carry the rich on our backs forever. Stop this attempt to line already overflowing pockets.
Richard	Reeves	The internet may well be the last bastion on earth that has some immunity left to the corrupt systematic theft that has been inflicted upon the entire world by the global corporations that OWN, direct and control the US govt. LEAVE IT THAT WAY!
Carolyn	Reeves	
Nora	Regan	
Rory	Regan	
Diana	Regan	

Bill	Reger	Please keep the US a class-less society. Do not, do not give preferred access to the wealthy, like everything else in the US. Maintain some semblance of a democracy. Public health depends on equal access to information.
Anthony J.	Regusis	Rather than allowing them to create "tiered" service, why not require them to actually build a separate fast network, rather than allow them to simply extort consumers for already subpar service. In any case, aren't monopolies against the law?
Fred	Rehhausser	
Clint	Rehn	
Debra	Reich	
Joshua	Reichek	
Jerry	Reid	I'm so , so tired of big money running this country in everything we do now-a- days and for the benefit of themselves ..The little guys have"nt got a change . Please , Please allow the open Internet ...
Matthew	Reid	
Joseph	Reid	
John	Reid	
Dennis	Reid	
J. Benton	Reid	What happened to the Doctrine of Fairness? This sound exactly like a Republican move to benefit the rich and eliminate the middle class. I urge you to veto this stupid idea thank you
Ruth	Reidy	Keep the internet free of the influence of companies like Verizon and Time Warner so that fast lines are not dominated by titans and rather open to all of us!
dennis	reifsteck	
Wayne	Reilly	we need REAL net neutrality!
Robert	Reimert	The internet works just fine now. Don't mess with success!
Bettie	Reina	
al	reinhard	Do the Honorable thing, FCC. Keep the web FREE!
Patricia	Reinhardt	Corporations are not people. Telecom and cable companies' rights do not equal or exceed the rights of the people. Keep the internet responsive to the wishes of the people. Do not impair our freedom to communicate.
Kathryn	Reinicke	
James	Reinke	Dear FCC, We need to keep an open internet. We are living in such times of incredible income inequality, we need to level the opportunity for all internet users.
Shirley	Reis	
Stanley	Reisman	It is almost inconceivable that the FCC would even entertain the thought of other than strict net neutrality. The net belongs to all of the people. It must always stay that way!
Charles	Reiss	distance yourself from the monopoly "enterprise" politics they have ulterior motives and will reorganize tiering,
Philip	Reiss	Please no special arrangement for corporate media giants to gain insider advantages.
Noreen	Reist	I don't want to see the internet turn into television, where information is controlled by a small few but consumed by many. Keep the internet free, please!
Thomas	Remington	Individual rights are being attacked from all sides lately. The Internet, by its nature, may be the most powerful weapon to stop this attack. I urge you to support Net Neutrality, which is essential in this battle.
Spenser	Remington	
Ann	Remkus	Do not allow big business another chance to control and manipulate the internet. For once let the little guy(s) win by true net neutrality.
Beth	Rempe	Money has always been able to buy access and exposure - the internet has, until now, been a successful antidote to this. It has been a medium for ALL to express and communicate more equally. Please keep it that way.
Frederick	Remus	Everything is just fine the way it is, why are you even considering changing the rules now?
Wayne	Renardson	The internet should be classified as a public utility and not give over to Comcast, Verizon, or any other mega-corporation.
Dorothy	Renaud	
Lori	Rendina	
Peggy	Reneau	Keep the internet OPEN!
John W	Renfrew	
Christopher	Renner	Keep the Internet open and free! Please do not allow a corporate taken over on this public trust! The Internet is not for sale!!!
Elodia	Resendez	Those who produce the computers we all use might want to consider this: Many of us do much work on our computers. If they slow to a crawl, I know I will find other things to do with my time and not replace my computers when they get too old.

Marla	Resnick	I urge you to keep the internet accessible for all. If money and corporations control access to internet then all is lost..... information, = empowerment of the American people. Please don't throw us down the drain. Marla Resnick, M.S.
Sheila	Resseger	Large corporations should not be allowed to interfere with the free exchange of ideas on the internet. We must have real net neutrality!
Anne	Rettenmair	It is not fair that people who do not have the money would find it difficult and slow to access the internet because large companies or rich people have the ability to pay for fast service. Leave the net neutral.
Betty	Reuben	I am concerned about the proposal to allow major telecomand and cable companies control over what I can see please do not allow this to happen BettyReuben
F. Carlene	Reuscher	There are far too many monopolies now. Please leave the internet free to all people.
Rocky	Reuter	
Mr.	Revesz	
Oscar	Revilla	
Linda	Rex	Do your job for the people, not the corporations. We want an open internet. In fact,we demand it. What is there even to think about???
Jenny	Reyes	
Sudy	Reynolds	I am completely against more control by companies like comcast and others deciding what I can watch and ripping me off so that i can watch a show on T.V. I hate the amount of control they have been given. Please stop these monopolies.
Heather	Reynolds	Net neutrality is important to me because the internet has become an essential tool for spreading information that is not reported in the mainstream press. A free and open internet is akin to a free and open press. Also I already pay a lot for service.
Elizabeth	Reynolds	Stop the corporate takeover of the Internet! Net Neutrality is important because the Internet is an essential service Americans rely on to conduct our most basic daily affairs. MAINTAIN NET NEUTRALITY!
Yolanda	Reynolds	Such programs will eventually destroy the US that I have long held in high regard for its obvious democratic spirit.
Heather	Reynolds	The FCC must establish regulation to protect open internet. In the interest of democracy, we cannot have businesses creating more monopolies in the area of communications.
Dale	Reynolds	
Cathy	Reynolds	
Ruth	Reynolds	We need real net neutrality. Keep big money out of it. The Internet is not for the rich and powerful. It is for all of us.
Billie	Reynolds	What has happened to the market that allows the natrual choice to flow? Why permit favorites on the air which is free for all of us, not freer for some and less free for others? Please offer no changes! B Reynolds
Michael	Rha	
Bruce	Rhoades	Keep the internet open! We need REAL net neutrality!
Patricia	Rhoda	
Joseph	Rhymer	I oppose any fast lane program.
Frederick	Rible	
John	Ricci	
Michael	Rice	In a time when corporations are owning everything, it is essential net neutrality is kept in place.
mitch	rice	just more privelege for the priveleged.
David	Rice	The FCC is as good as the United Nations--Useless-- and Good for Nothing!
David	Rice	
Everett	Rice	
Dan	Rich	All Americans should have free and equal access to the Internet.
Jim	Richard	
Cynthia ann	RICHARD	
Patricia	Richard-Amato	If you care about our citizens, you will ensure that they will have actual net neutrality, not some phony version of it.
Carl	Richards	Keep the Net really neutral. We don't need a gimmick decision that favors the corporations. I fear your decision will either slow my Internet down or cost me more.
Don	Richardson	Attempts to curtail The People's First Amendment rights will surely be met with a barrage of lawsuits. We have already lost our democracy; how far will you push us before we revolt?
Gary	Richardson	The internet is the epitome of a "commons." Don't allow it to become a tragedy, exploited by those who wish to profit from this public resource not sustain it for all. ISPs should be regulated like public utilities; rates cost-of-service based.
Llanda	Richardson	
Lauren	Richie	

David	Richmond	Please do the right thing and keep the Internet free and fair. You don't work only for big companies. You also work for all citizens.
Michael	Richter	equal speed and access to the web for ALL!
Brent	Richter	
Tracey	Rickell	
Stan	Rickert	Open, affordable, fast and universal communications networks are essential to our individual, economic and political futures.
Jerome	Rickert	
Carolyn	Ricketts	NET NEUTRALITY IS A HUMAN RIGHT, NOT A RICH, BRAINWASHING FOR THEIR OWN PURPOSES, CORPORATE RIGHT. That means NOT allowing telecom and cable companies to have rampant control over the most vital and widely used communication source in the world.
Elizabeth	Riddle	We need to keep the internet open to everyone, not just the highest bidders.
Cris	Riddle Shreve	Restricting the internet is unAmerican!
Doris	Ridenour	Corporations have already taken over too much of our lives!
Michelle	Rider	Please do not take net neutrality away. It will devastate small businesses and interfere with the exchange of information by ordinary people.
Matthew	Ridge	
Margaret	Ridgeway	Keep the Internet equal for all.
Harold C	Ridgway	"Corporate take-over" has taken on new meaning. As Howard Beale said in "Network", "I'm mad as hell and I'm not going to take it anymore!"
Patricia	Ridley	The internet isn't for corporations who pay more ... it's for people like me who pay a lot each month and end up with second-rate service.
James	Ridlon	net neutrality has made the world a better place. A fast lane is same old corporate greed
Christina	Riegel	I'm tired of the ISPs exerting unfair business practices across the board, like shady billing practices, and "noncompetitive" lawsuits with local govts. They can do whatever they want because they are the only provider. It's unjust
Dana	Riell	
Laurie	Rigelhaupt	SCOTUS will have to rule on this free speech issue: Are the rich entitled to more speech than the rest of us? Once and for all: If money is speech and corporations are people, we are truly living in an Orwellian world.
Richard	Riggs	an open internet is mandatory. Companies that can control access by requesting bribes as in charging higher rates for higher speeds will undermine the amount of information we can receive on every topic.
Anne	Riley	Please don't adopt the current proposal, protect true net neutrality, protect democracy.
Cassandra	Riley	Please don't allow this to happen someone has to think about the people
David	Riley	Please stop kow towing to big business and save the open internet. This belongs to everyone, not the wealthy or powerful. Please do the job you were hired to do - for the people.
George	Riley	We the people are the foundations of the economy, the republic and taxes. They must be treated as internet equals. Net neutrality is a guarantee that such equality exists. Otherwise the FCC may create a new caste system.
Gerald	Rimmer	
James	Ring	
Stephen	Ring	
Tiffany	Rios	Stop the influence of big money in the internet. Everyone needs an equal voice at equal internet speed.
Barbara	Rioual	
George	Ripeckyj	NO ONE should own the internet.
Ralph	Ripke	How can you interfere with the internet, giving all the fast lanes to Large Corporations and leaving Millions of us individuals to be forced to have lessor activity on such a important way we all communicate now. Are not individuals just a important ?
Christopher	Ripman	Communication channels should not be for sale to the highest bidder. I want to continue to live in a democratic environment. Charge democratically for internet access, if you must, but don't sell out our freedom of speech.
Rudolph	Ripp	
Kathleen	Rippey	
Ruth	Rippner	
Thomas	Rippolon	this tier system is unacceptable. the internet must remain neutral...not just open.Reclassify it as a common carrier to end this discussion
Michealene	Risley	Stop focusing on big business and collusion. this is not about making MORE money. Please stop.
Sandy	Risse	we need freer and more press and media..not conglomerates ruled by one or two corps...we have already lost a lot of our democracy with this merger mania!
Cindy	Risvold	

Robert	Ritchard Jr	Giving major telecom and cable companies the power to control what we can see and say online is unacceptable!!!
Priscilla	Ritchie	
Julie	Rivera	Many of our students at universities around the country rely on the Internet for their education. A slow Internet will hamper their pursuits. Don't let them down!
Manuel	Rivera	The American people is more import than the Corporation. Congressmembers You are only employees for the American people not for the big corporation. This is mandatory to reduce price from the internet. Thank you. Sincerely Activist Chicano/Latino Manuel
Mario	Rivera	
Lauri	Rizio	
Raoul	Roach	The original rules set in motion the greatest peace time economic expansion. It is short sighted to change the rules now.
Ellen	Robbins	
P	Robbins	
Thomas	Robbins	While I support the ability of people to pay for higher internet speed to an extent, I oppose giving large corporations all of the high speed internet.
Patricia	Roberson	
David	Roberts	A two-tier internet is a truly terrible idea. Let's keep this engine of innovation and invention open to all on an equal basis.
Kathleen	Roberts	America needs an open internet to express our national values.
Paul	Roberts	As someone who works in the technology field, let me assure you that allowing carriers to strike preferential deals with large providers would curtail innovation and snuff out new services before they're even imagined. Don't do it!
Peter	Roberts	The Internet is one of the greatest positive influences on our democracy in our technological age. Do NOT let the providing companies monetize the 'Net by tiers as they did for cable. Keep the 'Net open and neutral.
John	Roberts	The internet should be treated as a common carrier.
Celia	Roberts	There is no more reason to play favorites with the internet than there is with telephone and electrical service! Quite playing favorites with the ultra wealthy. If you make this decision in their favor, I can guarantee that you will regret it!
Sara	Roberts	
Gretchen	Roberts	
Katherine	Roberts	
Ryan	Roberts	
Glenn	Robertson	Everyone has access to the same internet. Don't let it be administered by various large corporations.
Nadia	Robertson	
Edward	Robertson	
James	Robertson	
Kim	Robertson	We need an equal platform. We need REAL net neutrality. It is the basis for the true intention of the internet!
Laurie	Robertson-Lorant	
Scott	Robeson	The days of totally favoring corporations over private citizens is slowly coming to an end. Please don't be the last of the dinosaurs and give corporations special rights.
Robert	Robey	
Steve	Robey	
Margaret		
Christine	Robinett	
Harold	Robinnson	What is being proposed is institutionally imposed censorship if freedom of choice.
Berklee	Robins	
Shirley	Robinson	ALREADY GOT SLOW INTERNET , WHICH DRIVES ME CRAZY. EVERYONE HAS THE RIGHT TO HAVE THE SAME SPEED AS EVERYONE ELSE SINCE WE PAY FOR IT.
Gretc	Robinson	as a caregiver for my husband and thus mostly at home, the internet is my lifeline. I insist we need net neutrality. And corporations like Verizon do not need 'fast lane.' Ensure freedom of speech, keep net neutrality.
Ruth	Robinson	I detest the idea of our democracy going down the drain. This is another big step in that direction.
Eric	Robinson	Maintain Net Neutrality. Keep the Internet free and equal.
George	Robinson	The internet has become a vital public resource that must be safeguarded for all citizens. Please do not allow the overall functioning of the internet to be undermined by certain corporations that seek enhanced profits from those willing to pay a premium.
Bobby	Robinson	The Internet is for everybody, not just the corporations.

Marcia	Robinson	
Eileen	Robinson	
Martin	Rocek	Please protect net neutrality. The telecom and cable companies have too much power already--please don't let them sell the internet to the highest bidder.
Peter	Roche	I am opposed to allowing ISPs to create "fast lanes" for the internet. I think it would harm innovation and would overall be bad for consumers and small internet businesses.
Ingrid	Rochester	Again people are being controlled by 'Big Money'? We are all equal on the Internet.
Anne	Rochman	
Marcia	Rock	Those of us who are just average voters can't compete with corporations and shouldn't have to!
Janice	Rocke	
Camilla	Rockefeller	
Michael	Rockliff	
Brent	Rocks	Don't sell us out.
Jenny S K	Rockwell	
Sheila	Roddy	The internet should remain free.
Forrest	Rode	
Hank	Rodgers	DO NOT "commercialize" a critical service that has become a necessary, public COMMODITY!
Jeanie	Rodgers	Insure REAL net neutrality...equal access to all users.
Betty	Rodgers	It's unthinkable that the fast lanes might become accessible only to the few. I implore the FCC...this MUST NOT happen!! Is there no more fairness in this world unless you have mega billions? So sad!
Scott	Rodgers	
Sharon	Rodrigues	Keep the internet neutral and open to all regardless of ability to pay.
Darlene	Rodrigues	Net Neutrality is important to keeping our democracy strong. No real access to the internet to the highest bidder! Thank you!
Patricia	Rodriguez	Don't try to steal the internet for private interests' enrichment and influence. The Net belongs to the people!
Teresa	Rodriguez	Look what's happened to television since you sold out to cable companies... Just stop now!
Raynaldo	Rodriguez	Equality on The Internet's only FAIR.
Carmen J	Rodriguez	quit bowing to corp. giants
Lenora	Roedner	Internet should be a public utility. People use the Internet to research and stay informed on various issues. Allowing fast lanes would makes this just about impossible.
R.	Roegner	We know who you work for.....
Hal	Roesler	No fast lanes for the few!!
Tony	Roffers	
Mark	Rogers	The internet is where business and ideas are exchanged in today's world. Thus unfettered access to the internet internet is absolutely critical for our democracy and our economic survival.
Joan	Rogers	this country was built on freedom and equality. we have enough purchased votes by the Koch brothers and their ilk. we must have equality in the internet regardless of financial considerations.
Dennis	Rogers	
Jennifer	Rogers	
Michael	Rogers	
Thomas	Rogers	
Frances H.	Rogovin	
Michael	Rohan	Don't split the country between rich and poor anymore than it already is. There's more to being a nation than money.
Shelly	Rohde	Please keep the Net neutrality as it is. Fair and equitable for all citizens, not just the ones that can afford better. Thank you.
Dennis	Rohr	
Laura	Rohrer	
Charles L.	Rojer M.D.	Keep the internet FREE and OPEN!
C.Stevens	Rojeski	Democracy cannot survive without a well informed citizens. Keep Net Neutrality really net neutral!
Mary	Rojeski	DO YOU WANT TO BE PAYING MORE?????DON'T LET THEM SCREW THIS UP!!!!
Jelica	Roland	
Angelika	Roll	Dear Mr Wheeler, please don't let telecom companies dictate me how to use the internet. With nonprofit orgs. getting pushed on a snail lane my internet use and life would become miserable. Thank you for listening to ordinary people!
John	Rolf	

Ned	Rollins	Our ability to communicate has improved considerably with the internet. It is an extension of our ability to communicate and should be as accessible and personal as writing a letter or making a phone call.
David	Romain	
Becky	Romatoski	The current plant is not the way to go. Designate the internet just like telephone lines, regulate it like a utility. NO FAST LANES.
Sam	Romero	
Lance	Rommerdahl	I'd to see you keep network neutrality
Teri	Roney	
Lora	Roode	
Karen	Roof	If you end net neutrality, you will be replaced, so do what you will, sit back and watch a revolution.
ann	roos	Please study the life of Aaron Schwartz before you do anything. We need real net neutrality is an understatement. The human race will die without it. Thank you.
Lloyd	Roos	
Lynne	Roosa	Everyone deserves equal access to the Internet. Please regulate it as a utility. It is essential for all.
Tom	Root	FCC, do you think you have the authority to shout down small and large businesses who rely on the internet and the present speed it provides to compete in world wide ecommerce? Not! get your minds right. Or face Legal action.
Paul	Root	Stop enabling the oligarchs!
Sumner	Roper	REAL net neutrality is our individual right not that of corporate entities!
Michael	Rosa	Make broadband a public utility so all can gain equal access.
Deborah	Rose	Do not change access to the internet!
Maggie	Rose	It is of paramount importance to our creative edge as engineers, artists, THINKERS - to keep the internet free of corporate manipulation for the greater good of ALL PEOPLE. Please don't lose us this freedom of ours.
Tedford	Rose	Keep the internet open to all. Don't start dividing the internet between people with money to burn and people who don't. If you want to help America, require Internet providers to make the internet as fast as Europe or Japan at a lower cost.
Emily	Rose	No fast lanes for the rich and powerful!!! Keep the internet open. I want REAL net neutrality. DO NOT GIVE PRIVATE COMPANIES CONTROL OVER THE INTERNET! Keep it public so it can serve all equally.
Diane	Rose	Please don't sell the internet to the highest bidder! Individuals (and smaller businesses) will LOSE and we'll be forced to pay MORE and MORE for what is (essentially) free now.
Dick	Rose	Please keep the channels of communication open to all. Don't allow the attempts at enrichment by a few to penalize the rest of us.
Tom	Rose	Please retain real net neutrality! Thank you for considering my opinion. Thomas D Rose
john	roseman	If you allow private corporations to have control of which channels on the internet a citizen has access to the only people you will be benefitting will be the corporations and the wealthy. Is that your purpose?
Ivan	Roseblatt	I would like my voice as a citizen to be heard. I resoundingly oppose any fast lanes on the internet. Keep the internet free, open and equal.
Kay	Rosen	I am an artist and have a website and strongly object to control of the internet by the big corporations! Their hegemony will slow down access to my website and affect my business. It would be most UNdemocratic to get rid of net neutrality.
Maria Catrambone	Rosen	Please protect net neutrality. It's a benefit to all and should not be hogged by big business.
Jeff	Rosen	
Veronica	Rosenau	Ending net neutrality would be killing free speech, limiting equal opportunities for small business start up and catering to big business which already dominates our government. Please don't do it.
Evan	Rosenbaum	I like camping and share my experiences on small websites. No net neutrality means Comcast will charge websites for faster Internet speeds and they will disappear. Please preserve net neutrality.
Steven	Rosenbaum M.D.	
Gary	Rosenberg	It's not about money--it's about people.
June	Rosenberg	Please don't sell out to monied interests
Christine	Rosenberg	Please save the internet for "the little guy" - this is extremely important!
Ernest	Rosenberg	
Gertraud	Rosenblatt	
Judy	Rosenblith	
Carol	Rosenblith	
Camilla	Rosenfeld	Please save the internet from special interests
Alice	Rosenfeld	

Lawrence	Rosenfeld	
Stewart	Rosenkrantz	We need REAL net neutrality.
Richard	Rosenstein	
Lynn	Rosenthal	I am basically a shut in. The Internet is very important to me. If it becomes restricted and unaffordable, my window to the world will be closed. Other countries have FREE Internet access for everyone. Why is the U.S. moving backwards for a greasy buck?
Rene	Roser	
Lawrence	Rosin	This country is supposed to treat everyone equally. Therefore, no one should have extra or fewer rights with the internet, just because of how rich or powerful people are, or how poor and powerless people are.
Katrin	Rosinski	
Anthony	Rosner	
Myra	Ross	It's your moral imperative to keep a level playing field on the Internet.
Wendyl	Ross	let freedom ring!
Audrey	Ross	The ability to use this to restrict information and reduce options concerning that information should be enough to stop this. that it is not suggests the process as well as those in charge are corrupt or are addressing a non-disclosed agenda.
Peggy	Ross	The Internet is now the de facto instrument of political debate in this country. Anything that interferes with an Open Internet is a blow against free speech in the United States. Money is already too important in American politics.
H.	Ross	
Susan	Ross	
Adrienne	Ross	
Candy	Ross	
Bruce	Ross	
Jean	Ross	
Elliot	Ross	
Chaia	Ross-Booker	Who will want to use the internet if it will be slow because we aren't "the big money guys?" It will be frustrating! I think we should all have equal access and equal speed.
John	Rossi	
Barry	Rossinoff	
Shannon	Rossiter	
Alice	Rotfort	Please avoid initiating this proposal. I do not believe it is in the interests of the greater good.
Morris	Roth	Hey, FCC; There are people, millions of them, who use the internet. Not for business, not for entertainment, but for knowledge. Do not let them down, do not desert them.
Mark	Roth	
Lu	Roth	
Michael	Roth	
Erik	Roth	
Laurie	Rothermel	Net neutrality means equal access for all!
Emily	Rothman	
Philip	Rothman	
Amy	Rothstein	"Open Internet" is NOT fooling us. We want Common Carrier status for the internet, it is NOT like television, it is JUST LIKE telephones and mail. Open Internet with two or more levels is NOT Net Neutrality.
Paul	Rottmann	Do not suck up to the corporate fat-cats who want special treatment on the internet. They want to use the public's airwaves to greedily earn millions more than they are already raking in.
Suzanne	Roulston-Doty	
Gloria	Rouse	The internet is very important in our lives, we don't need corporations co-opting what has been an open and democratic tool for us all. Please put this terrible idea to rest!
Rebecca	Rouse	
Anne	Rousseau	The internet should be free, open and balanced to all. Fast lanes would most like raise broadband prices for consumers, and allow current IT giants to choke competition by blocking access for new startups.
Julie	Routh	We are already precariously close to an oligarchy in this country. We need absolute net neutrality!
Root	Routledge	Net neutrality a must. No 'pay extra' for fast lane. It's our democracy we're talking about.
James	Rovnak	We the people or Smart Government gave them the internet, let's keep it open to all! These guys already charge too much & limit our bandwidth with pricing to the countries disadvantage? Keep the playing field LEVEL!
Richard	Rowe	Keep the internet free of corporate control. Speed of communication should not depend upon the influence of the deep pockets in the boardrooms. Individual citizens are already at a disadvantage.

G.	Rowe	Please ensure the internet is made truly neutral!
Mary	Rowell	
Randy	Rowland	Thinking the cable companies can self police this is about the most ludicrous idea ever conceived. Wow! No way!
Phillip	Roy	The large communication companies are already stealing the American public blind by offering sub standard services for much higher prices than those paid in Europe, probably because of kickbacks to politicians and those needed to promote their agendas.
Gerry	Royse	
Allen	Rozelle	Help keep corporate interests from controlling the internet.
Abraham	Rozman	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Carol	Rubenstein	
Paul D	Rubin	Please saque Net Neutrality and stop the 'fast lane' plan!
Marc	Rubin	The Internet is by all means a commons, and is of and for the common good, necessary to commerce, to communication, to freedom of speech and trade, and so much more -- it is truly a public utility, and should never be misunderstood as a commodity.
Mildred	Rubin	The internet may be the only vehicle capable of avoiding America becoming a theocratic plutocracy.
Larry	Rublee	If big media can pay extra for faster service, the rest of us will suffer slower service. This just increases the inequality in our society. Please do not bend to the lobbying by big media.
Kenneth	Ruby	We need an Internet that is open and equal. We need to continue net neutrality. I demand that you classify Internet services as a public utility, to be handled without any preferential treatment whatever. Stop caving in to the rich; the people need you.
David	Ruch	
Ralph	Rucker	
Natalie	Rucker	
Sarah J	Rudin	
Marge	Rudman	
Mike	Rudnick	Open & free communication is the hallmark of democracy. Unfortunately, we here in the U.S. have largely lost access to this freedom fundamental to a free society. The one place we still have this freedom is the internet. Please don't take it away!
Judy	Rudolph	
Alta	Rudomin	
Christoph	Ruegg	The internet is a utility. Treat it as such. Stop the money grabbing highwaymen from blackmailing all consumers.
Patricia	Ruehmann	
Thomas	Ruff	Leave it the way it is.
Karen	Ruff-Noll	The internet needs real net-neutrality not a tiered system that favors the rich and business.
Martin	Rugger	
Bonnie	Ruggiero	
D.	Ruhle	Enough is Enough! Were does this end...just MORE money out of everyone's pockets. So now they want to make the internet for the Rich!
Peggy	Ruiz	Don't get in lockstep with a draconian Supreme Court attitude. A decision in favor of large ISP's would spell disaster for small businesses who depend on the internet.
Tina	Ruiz	This is just UNFAIR!!!! KEEP REAL NET NEUTRALITY FOR EVERYONE...RULES ALWAYS SEEM TO CHANGE IN FAVOR OF THE 1% or those who have the money!!! Please leave it
Danielle	Ruiz	
Kathleen	Ruiz	
Julio	Ruiz	
Elena	Rumiantseva	Internet is a public utility, not a venue to pick winners and losers.
Frances	Rundlett	
Rich	Runk	
Douglas	Rushing	
Barbara	Ruskin	Government wavelengths should not be for sale to the highest bidder. The government should protect the public and keep usage neutral.
joan	russell	Please ensure that freedom of an open internet helps us to preserve democracy. Joan Russell
Kathleen	Russell	Preferential access is NOT what the world needs when it comes to communication. Please do what is right and deny big spenders privileged access to what is a modern-day right to open and free communication and collaboration.

Chris	Russell	The internet has become so fundamental to how we conduct our lives and business and how we innovate at this point that the federal government must protect it with net neutrality rules and not allow "fast lanes" or favoritism.
Leah	Russell	
Michael	Russell	
Patrick	Russell	
Martha	Russell	
Sandra	Russell	
Laura	Russell	
Janet	Russo	
Linda	Rust	The Internet is one place where true democracy still exists. We need that forum for the free expression of ideas and sharing of information to be available to everyone equally! Preserve Net Neutrality laws!
Paula	Rusterholz	
Carolyn	Ruth	Do not allow fast internet lanes for companies with deep pockets that will control what I can see and say online. Nonprofits, independents, and dissenting voices will be consigned to the slow lane.
Lawrence	Rutkowski	Keep the internet equally available to all, not just the well heeled!
Lydia	Ruyle	A free and open internet for all is essential for the world.
Kathleen	Ruzicka	Keep the internet open and useful to everyone. Just because corporations can pay more than small businesses or individuals, does not give them the right to take over the most democratic form of communication around. Keep Net Neutrality.
Gail	Ryall	
Paul	Ryan	It is disgraceful that these anti-people internet policies are even being considered. The proposed rules benefit no one but big business. I urge the chairman to put society's interests and freedom above corporate profits and SCRAP THESE PROPOSED RULES.
Lee	Ryan	Please preserve Net Neutrality so that the Internet remains an open, fast, fairly priced system for everyone for information sharing, innovation, research and business. The Internet should be regulated as an information utility for the common good.
Elizabeth	Ryan	The Internet works. Please don't sell it out to the same greedy powerful players who ruin and impede so much that is potentially good and enriching to us ordinary citizens.
James	Ryan	This has gone far enough, catering to the whims of big business. Stop now.
Richard	Ryan	
Dominique	Ryba	
Torin	Ryder	
Susan	Ryder	We are tired of our world being sold to the highest bidder. It's time for large corporations and their profits to become what they are - businesses, not governments or gods. It's time for the needs of the citizens to come before those of corporations.
William	Ryerson	
Cary	Ryerson	
Nancy	Ryker	My dad used to say "if it ain't broke don't fix it" Same holds true for the internet. Its working just fine for all of us millions that use it every day. Thank you.
Robert	Rynasiewicz	No special favors for fat cats. Keep the internet open to all.
Lavaughn	Rynearson	Don't play games with the internet, it's too important. We need REAL net neutrality.
Ruth	Ryser	Please reject the "fast lanes" for huge corporations and maintain net neutrality instead. Access to the internet should be regulated like a utility. These telecom giants will ultimately gouge the public and degrade public access. It's wrong.
Danny	S	This would change the internet. Being free and open gives every ones ideas a hearing.
D.	S	we need REAL net neutrality.
Susie	Saalwaechter	
Francisca	Sabadie	
Frank	Sabatini	
Betty	Sabo	I am disgusted by the FCC's proposal to allow fast lanes so that deep-pocketed corporations will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane. You should be ashamed.
Ronald	Sabo	Please: leave it alone! If this happens, it will never be reversed.
Georgia	Sabol	Net neutrality, please.
Angelo	Sacerdote	As an internet consumer and a small business owner, I depend on net neutrality to allow my voice to be heard on the internet. Please do not allow "fast lanes" for the few who can afford it.
Barbara	Sachs	It is grossly unfair that, once more, those with unlimited funds have their desires met before the majority!
Oren	Sachs	This is NOT democracy it is pure unadulterated Fascism.

Tracey	Sadiq	
Jim	Sadler	
Richard	Sadowsky	
Daniel	Safer	The internet must be treated as a utility that serves all users equally.
Martin	Sage	No special deals for big, rich companies! They should not own the airways.
Rebecca	Sager	I'm totally opposed to allowing anyone to be allowed to pay to get preferential speeds. The internet needs to stay neutral for all, equally available for all.
Annie	Sahlin	To the FCC, please do not allow money to be a factor in who gets better access - through speed - to the Internet. Try to keep this information highway as democratic as possible.
jacqueline	Saint Anne	
Thomas	Saito	
Zhila	Sajadi	
Dr. Eugene L.	Saklad	Please protect First Amendment rights for all on the internet.
David	Saladino	The internet is for all, at the same speed. NO SECOND CLASS TRAVELERS, PLEASE!
David	Salahi	I'm concerned about the proposal that would divide the internet into the haves and the have-nots. I support maintaining an open internet which is freely accessible to all. Please say no to toll roads on the information superhighway.
Nancy	Saleeby	In an era when even the Supremes have been bought by corporations, the FCC, an arm of the US govt, should stand up to corporate money and protect the citizens the govt is supposed to represent.
Michael	Salemi	
Lou	Salerno	Please keep the internet free of the 'fast lanes' and the commercialization that would make it yet another victim of big money. It is and should remain by and for the people. Corporations are not people!
Glenn	Saliga	Please do not sell the future of American Freedom and free thought to control of a few corporate giants! Please fight these rules that will allow corp giants - good or bad to have an every greater influence over Americans!
Katherine	Salinaro	
Jacqueline	Salomon	
Anthony	Saltis	NO internet fast lanes. Treat all bits equally.
Elliot	Saltzman	
Richard	Salvador	
Greg	Salwitz	EQUAL ACCESS!
Wanda	Salyard	Show some kindness and compassion for people who depend on the internet as it is!
Dianne	Salyer	Stop letting the corporations set THEIR priorities, no matter what happens to the average person. We need honest, real net neutrality and not corporate profits (and lobbying) to decide this decision! Thank you.
Helen	Salyers	
Daniel	Samek	Freedom of speech includes electronic speech.
Steve	Samlal	Why sell fast Lanes to big corporations when the consumer never benefits. Is it because corporations are people?
Lemoyne	Samonsen	Anyone with a minimal capacity to analyze the progression of action and reaction has made the connection, between the Government being given access to Americans phone records and the BIG conspiracy PAY OFF for the participating Corps. Control the Internet
Stan	Samuels	Keep access to the Internet equal for all!
Rebecca	Samuels	
Lily	Sanchez	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Anna	Sanchez	
sinaway	sanchez	
Rodney	Sandel	My computer is already slow enough, please keep it open/fare
Matrshall	Sanders	How many times do i have to TELL you to uphold democracy and keep our communications systems free of corporate domination and free to the 99%? If you cannot keep net neutrality you should DISBANDED and all of the Board placed in JAIL!
Mallory	Sanders	The monopolies, or so-called "titans," need to be reigned in. Period. Break them up. Thank you.
Gary	Sanders	
Winnie	Sanders	
Kim	Sanders	
Sharon/Rob	Sanders	
Chatranjan	Sandhu
